

EDUCATION

•Bachelor of Technology in Artificial Intelligence	2024 – 2028
Sardar Vallabhbhai National Institute of Technology, Surat	CGPA: 9.19
•Class XII (CBSE Board)	Completed: 2024
Shiv Jyoti Convent School, Kota	Percentage: 95.80
•Class X (ICSE Board)	Completed: 2022
St. Joseph’s College, Prayagraj	Percentage: 97.20

EXPERIENCE

•Software Intern	Jun 2025 – Jul 2025
IFFCO (Indian Farmers Fertiliser Cooperative Limited) – Phulpur Unit	Prayagraj, India
– Developed and deployed a full-stack internal web application for the System Networking Division using Node.js, Express.js, and MySQL to automate internal workflows.	
– Implemented backend features and RESTful APIs , contributing production-ready code through debugging, testing, and peer code reviews.	
– Collaborated with engineers on system architecture, infrastructure setup, and deployment pipelines for enterprise workflow applications.	
– Tech Stack: Node.js, Express.js, JavaScript, HTML/CSS, MySQL	

PERSONAL PROJECTS

•LogiFlow (Decision Intelligence Platform)	GitHub Repo
A multi-modal logistics optimization system with AI-driven routing and real-time disruption handling.	2026 – Present
– Engineered an end-to-end multi-modal logistics platform integrating Rail, Air, Road, and Water pipelines using FastAPI and Next.js.	
– Designed and implemented a robust railway pipeline with advanced scraping, session spoofing, and ML-based delay prediction for real-time cargo tracking.	
– Built a hybrid decision orchestrator to normalize heterogeneous transport data and generate optimal routing based on time, cost, and risk.	
– Integrated LLM-based decision explanations (Gemini/Groq) to provide interpretable routing insights to users across web and mobile interfaces.	
•RangRiti (CulturalTech Experience)	GitHub Repo
A cultural hub with VR experiences, AI storytelling, and a marketplace for traditional arts.	June 2025 – Aug 2025
– Developed a full-stack cultural platform with artist profiles, workshops, and marketplace functionality using Node.js, Express.js, and MongoDB.	
– Integrated AI storytelling tools and deployed 40+ frontend pages and backend services for the Web Wonders 2025 competition platform.	
•Ink’d (AI Text Summariser)	GitHub Repo
An AI-powered platform for summarizing user text with local download support.	June 2025 – July 2025
– Developed an AI-powered text summarization platform using Node.js, Express.js, and the Cohere API.	
– Implemented backend APIs to process user text input and generate concise summaries using NLP models with export functionality.	

TECHNICAL SKILLS

Languages: C/C++, Python, JavaScript, HTML/CSS

Libraries/Frameworks: C++ STL, NumPy, Pandas, React.js, Node.js, Express.js, Django, Bun

Web Dev Tools: Git, GitHub, VS Code, REST APIs, JWT Auth, Deployment (Vercel/Render)

Cloud/Databases: MongoDB, MySQL

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems (DBMS), Computer Organization & Architecture (COA), Object Oriented Programming, Software Engineering

Areas of Interest: Backend Development, Distributed Systems, Full-stack Web Development, AI Integration

POSITIONS OF RESPONSIBILITY

•Technical Lead

Inspectonly.devs (Web Wonders 2025)

Surat, India

Jun 2025 – Aug 2025

- Led a 4-member development team, overseeing backend integration and feature deployment.
- Coordinated project milestones and ensured delivery of competition-ready platform.

•Executive Member

ACM SVNIT Surat

Surat, India

2024 – Present

- Organizing coding workshops and technical events to promote programming culture across campus.

•Mentor & Representative

Nexus SVNIT

Surat, India

2024 – Present

- Mentoring junior students in programming and coordinating student participation in technical initiatives.
